# Branch Of The Talking Teeth (On Time's Wing Series)

## Synopsis

It is 7000 years ago in the Land of the Blue Rock - before the Great Pyramids, or the Bible. Willful young Teta is guiding her wounded friend Moonhead, an attractive stranger and storyteller from across the sea, to safe haven at the edge of the Great Snow Wall. They are being pursued by the vengeful Soogat, who is now only two days' journey behind. Once friends, Soogat now views the popular Moonhead as a rival and threat to his leadership over the South People. Can Teta prevent a terrible showdown? Will Moonhead love her as she loves him? Inspired by the discovery of an ancient and mysterious burial mound on the Labrador Coast, Ishbel Moore has woven a suspenseful tale of how it might have come to be.

## Book Information

Paperback: 96 pages
