Customer Reviews

Gave it as a gift to one of the high school students I mentor.. Great tool in helping to implement a guided path for teens and young adults. I would use this book with the Occupational Outlook Handbook that has the quiz..

Dr. Steven Antonoff is one of the foremost leading authorities in the college admission world. He is committed to helping students around the country find the perfect college. This book should be in every college bound family's resource library. You can trust him to give you first class advice and service. - Jamie Dickenson, MBA, CEP

Not helpful. The worksheets lead to nowhere and the advice about how to pick a college, include "talk to your parents" and "check out the college planning apps available for your smartphone". Not worth buying

Very helpful. If you and your child use this book together it will help you zero in on the "right" college for them. It really takes the stress out of the college search.

This book is a must read and work on for high school students in the college planning process. Dr. Antonoff asks the right questions to enhance a student's self-awareness.

I had to buy this for school. Repetitive in places, but I think it's a good start for the college bound.

I use this book in my college planning business.

Great book for juniors & seniors!
