I rented this book for my class. Very happy with The quality of the book and how clean the book is on the inside. The book was as expected and a requirement for my class. The book is easy to read and has some great information inside and easy to read And understand.

Surprisingly interesting book. It was an optional purchase for a class I'm taking but I really like the cases and stories in the book. Cheeseman puts a little bit of humor into it too. The content is interesting and thought provoking, chapters are succinct and not drawn out. Good book even if you are just casually interested in business law - a lot of the material is generally useful for any person to know, like contracts and liability.

Be aware - you can only download this book twice. I attempted to download to three devices and had issues. From what I understand, this is common amongst text books and this publisher.

Helps with my business law class. I use it when my professor's notes are not comprehensive enough. Easy to understand, easy to read and does what its supposed to - teach you about law.

This book is great! i love that it defines the words a second time right next to the text paragraph. I'm going to buy it soon, hopefully!

pretty informative. It has tons of examples which makes you understand what the laws are etc. more clearly. well-written

Great deal on a textbook for class but had to purchase an online access code separately.

My son needed this book for his business law class in college. He loves it.
