# Numerology And The Divine Triangle

## **Synopsis**

At last a truly comprehensive and authoritative text on numerology! Part I is a complete introduction to esoteric numerology. Part II includes extensive delineations of each of the numbers 1 to 78 and, for the first time in book form, a synthesis of numerology, astrology and the Tarot. Each number is explained as personal number vibrations, as a temporary number vibration, in terms of its astrological correspondence and in terms of its Tarot symbolism. Each of the Tarot cards is illustrated. Numerology and the Divine Triangle is the book to which all books on the subject will be compared from now on.

## **Book Information**

Paperback: 268 pages

Publisher: Para Research (March 1979)

Language: English

ISBN-10: 0914918109

ISBN-13: 978-0914918103

Product Dimensions: 1 x 6.5 x 9.2 inches

## **Customer Reviews**

Whenever someone asks me which book on Numerology to buy, this is the one I recommend, without question. It is the absolute best reference book on the subject I have ever read, and I've been practicing Numerology since the mid-80s. Javane and Bunker put their information together in an easy to understand format, cover the basics, explain calculation and theory, and then expand from there to more esoteric topics. You can read this book on a lot of levels, gleaning from it more and more each time you read it. It covers advanced topics such as Kabbalah and Old Testament theories, and shows the correspondence between the numbers and the Tarot and Astrology. All in all this is a marvelous book, don't hesitate to special order it, it's well worth the wait!

I am a bit prejudiced about this book, because back in the eighties I gave a seminar on numerology and astrology in the tarot in Salem, Mass. and the authors of this book were among the

distinguished speakers. Both were kindly and erudite and yet very humble about their brilliant accomplishment. I recommend this book to all my students at Santa Fe Community College, where I teach the psychic crafts. It is, as others have said, truly a "bible," since it combines all the elements: numerology, astrology, tarot...with each card analyzed. Mostly, however, in a very simple, straightforward way, it introduces the fascinating craft of numerology. I can honestly say I learned numerology from this book, and use it in my readings all the time. My gratitude to the authors.

This is a fantastic numerology book. The picture on the front might seem frightening at first, but it's very simple, and fully explained in the text. I mapped out myself and several friends and family who were amazed at how accurate these methods are. This was heartening after another numerology book I had tried left people saying it was nonsense. A close friend of mine seemed to not fit, until we found his true name at birth (as instructed by the book to use), then it was uncanny how he fit! I use this as my main numerology book, and go by these methods first and foremost.

\_This is the newest edition of best numerology text that I have ever found. It is based on firm Pythagorean principles. I know that in the case of my own life and of those that I am most familiar with it has proven uncannily accurate.\_Part One deals with the origins and philosophy of numerology. You are clearly shown how to derive the significant numbers in your life (the life lesson number-7, the soul number-6, the outer personality number- 3, the path of destiny number- 9.) You are also shown how to construct the grand blueprint of the Divine Triangle for your life. Such topics as compatibility in career and companionship are examined. There is an enlightening case study of Edgar Cayce, the Sleeping Prophet. Finally, numerological significance and meaning in both the Old and New testaments are revealed.\_Part Two contains the best, most complete, and most deeply pondered delineations of the numbers 1 through 78 that I've ever found. These numerical vibrations are synthesized with the appropriate tarot keys, planets, signs, and decans of the zodiac.\_This work speaks to me, but then I remember that as a small child learning my numbers I instinctually KNEW that the higher MEANING of those numbers were being left out. I sensed that the numbers were being enslaved against their will to serve others' interests in the very same way that the powers that be were trying to warp me to serve their interests....

I was fortunate enough to find this book in a thrift store about 10 years ago. I'd had a casual interest in numerology before that, but the readings done according to this system were so accurate that I believe it highlights the reality that mathematics truly is the backbone of our universe. I've done

readings for family and friends who saw that there really was something to it, due to the uncanny accuracy, although some of them had a hard time admitting it.:-) I highly recommend it to anyone who has even just a passing curiosity in numerology.

Imagine knowing who you were when you were born. This is your soul number, which is easy to determine with Numerology and The Divine Triangle. This book helps you understand life lessons that you are here to learn, and provides details for personal years and months. This is the only book on numerology that I have read, and it is simple and complete. Thank you!

This book is an invaluable guide to finding personal Tarot cards, and working with both the cards and numerology simultaneously. In my opinion it is one of the best numerology books available. The book also does a far better job of exploring the first four master numbers than most.

I was fortunate enough to find this book in a thrift store about 10 years ago.
