Water Crystal Healing: Music And Images To Restore Your Well-Being

Synopsis

For centuries, people have turned to classical music for its calming and relaxing effects. Internationally acclaimed water researcher Dr. Masaru Emoto has discovered why certain music has healing benefits: Music with the appropriate rhythm, tempo, tone, and melody can correct distorted frequencies within our cells, assisting our health and healing. In this unique collection, Dr. Emoto presents music that he has found through his research to be beneficial for common physical and emotional imbalances. Listen to the musical pieces while enjoying Dr. Emoto's captivating water-crystal photographs. The possible benefits you may experience include decreased joint and back pain; improved function of the nervous, circulatory, lymphatic, and immune systems; and the release of negative emotions such as anxiety, self-pity, and depression. The combination of images, words, and music in Water Crystal Healing concentrates consciousness as never before, providing a unique experience for healing.

A well done research to prove that we are all affected by vibrations every moment in our lives. Water being the most abundant substance on earth forms different crystals when subjected to different vibrations. Hence, the music compilations (2 CDs) accompanying this book provides the healing tool for those who listen with their ears while enjoying the dance of the crystals (photographs in the book) with their eyes. A well invested book!

I am a long time fan of Dr. Emoto and his pioneering research. Just opened this book last night. It's full of gorgeous, large photos of the crystals which formed while the water "listened" to each of the classical music tracks included on two CDs in the book; a brief bit about each composition and composer; and the expected emotional and physical results of listening in to the vibrations of each piece. I listened to disc 2 immediately, before I slept last night. This morning I awoke without some severe stiffness I'd experienced in my lower back for a couple of days previous! This is a wondrous sharing by Dr. Emoto of his work in an easy and most practical way. I found all of the compositions deeply soothing. If you've had any doubt about the effectiveness of musical vibrational healing, this offering will convince you of its value. Highly recommended! Thank you Dr. Emoto for your vision and compassion!

Did you know that your body is about 90% Water? The book was a great read and I loved the 2 free CD's. I will be having surgery in the next 45 days and it was the main reason I purchased the book. I have felt so much better that I am now wondering if I really need the surgery. I especially liked his research on water, one where he analyzed pond water and then subjected the water to healing music. The proof is in his slides. The water that was exposed to healing music and/or blessings formed beautiful crystals. Did you know you are 90% water? What if your cells can heal? You have nothing to lose and everything to gain.

This book mainly talks about the music's origin and also some of its good effects by playing it. This book also contains two magnificent CD's that you must have. Ask the seller if you don't get that.

This book is wonderful, beyond belief. Such a great blessing! Raises our consciousness level and shows us how to build a better future. Thank you, Dr. Emoto for caring and sharing.

I was so excited when I opened the book up and found 2 free CDs in the back. What a pleasant surprise :) Greet Book!

This is an exceptional book which presents the healing possibilities of music. Each music selection has a specific effect on the body. It is also beneficial for anyone who is doing a research on music therapy.

I love all of Matsuro's books, but this one that comes with music is over the top!
