Helpful overview and tips, easy to understand. I would recommend this for anyone interested in employment with the postal office.

If you just want to see what the tests look like it's fine but that's not what the description said it was. I was looking for tips and help in taking the tests. You can see what the tests look like online for free.

Easy to read and understand. I would recommend to anyone getting ready to take the exam to order

this book.

Wonderful! I used this to study the day before taking my exam and got an 83 out of the possible 90! I would recommend to anyone wanting to study! Only downfall was I got the kindle version so I was not able to use the testing she's in the book, I just wrote them on paper instead!

Gave in depth attention to getting a high score, was like having a tutor on my kindle device that pushed me to reviewing address checking coding and memory can say I am extremely familiar with all the elements of post office exam

I am so impressed with this book it's incredible I really really like it thank you so much and I would really recommend it to anyone to also thank you

It is a good book to practice the test. However, I wish it would have covered more about post job situation.

Perfect study guide; it helped me score an 85.7 on the postal exam:)
