Customer Reviews

This pamphlet is going to become a regular part of my outings. It is written simply, yet covers how to use the often common plants to deal with issues, should they happen. It has a water resistant coating on the pages so you don't have to worry about it getting stuff on it. It can just be wiped off. Lastly I am impressed with it's small size. It doesn't take up a bunch of room or weight in my pack. Then when I'm not out in mountains it stores very neatly in my glove box in the suv.

A folding plastic page. \$7 something dollars
