Student's Guide To Writing College Papers: Fourth Edition (Chicago Guides To Writing, Editing, And Publishing)

Synopsis

High school students, two-year college students, and university students all need to know how to write a well-reasoned, coherent research paper; and for decades Kate Turabian's Student's Guide to Writing College Papers has helped them to develop this critical skill. In the new fourth edition of Turabian's popular guide, the team behind Chicago's widely respected *The Craft of Research* has reconceived and renewed this classic for today's generation. Designed for less advanced writers than Turabian's *Manual of Writers of Research Papers, Theses, and Dissertations*, Seventh Edition, Gregory G. Colomb and Joseph M. Williams here introduce students to the art of defining a topic, doing high-quality research with limited resources, and writing an engaging and solid college paper. The Student's Guide is organized into three sections that lead students through the process of developing and revising a paper. Part 1, "Writing Your Paper," guides students through the research process with discussions of choosing and developing a topic, validating sources, planning arguments, writing drafts, avoiding plagiarism, and presenting evidence in tables and figures. Part 2, "Citing Sources," begins with a succinct introduction to why citation is important and includes sections on the three major styles students might encounter in their work: Chicago, MLA, and APA; all with full coverage of electronic source citation. Part 3, "Style," covers all matters of style important to writers of college papers, from punctuation to spelling to presenting titles, names, and numbers.

Customer Reviews

I originally bought this book by accident because I thought my professor said that it was the required text. No later than 30 seconds after she said it I logged on and purchased it during her class only to find out that it was not required but recommended. I had it by my side when writing my first essay of the semester and will continue to use it throughout the rest of my college career.

This book is a concise distillation of the enormous Chicago Style Manual. Recommended for graduate students--particularly those who must use multiple citation styles.

I needed this for a class - it has SO much helpful stuff in it though. For anyone looking to improve their writing this book is a must. Very pleased

The book was helpful in getting better research done for my papers. It also helped with writing habits and styles that i struggled with in the past.

Outlines everything from summarizing, thesis forming, citing, and practically everything under the sun when it comes time to make that paper wonderful.

I gave this to my college freshman nephew who was thrilled with the help it provided on writing papers. He used the book the very day he received it.

I'm not trying to be a grammar Nazi, but I've already seen over 6 careless typos and misspellings after reading 4 or 5 chapters. So far, I noticed two sentences with subject and verb disagreement issues. The book's authoritative status quickly becomes questionable especially when its author makes obvious spelling and grammar errors. I wish I knew the page numbers, but the book needs to get another thorough editorial review before its official publication. In addition, several ideas are redundantly repeated as if a student is trying to increase his or her essay's length by repeating the same concepts in paraphrased words.

Excellent for non traditional students. I used this extensively for citations
