Secret Journey To Planet Serpo: A True Story Of Interplanetary Travel

Synopsis

Documents how 12 people, as part of a top-secret U.S. government program, traveled to the planet Serpo and lived there for 13 years • Based on the debriefing of the Serpo team and the diary of the expedition's commander • Explains how the aliens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems • Reveals how our government has an ongoing relationship with the Serpo aliens

On July 16, 1965, a massive alien spacecraft from the Zeta Reticuli star system landed at the Nevada test site north of Las Vegas. Following a plan set in motion by President Kennedy in 1962, the alien visitors known as the Ebens welcomed 12 astronaut-trained military personnel aboard their craft for the 10-month journey to their home planet, Serpo, 39 light-years away. In November 2005, former and current members of the Defense Intelligence Agency--directed by Kennedy to organize the Serpo exchange program--came forward to reveal the operation, including details from the 3,000-page debriefing of the 7 members of the Serpo team who returned after 13 years on the planet. Working with the DIA originators of the Serpo project and the diary kept by the expedition's commanding officer, Len Kasten chronicles the complete journey of these cosmic pioneers, including their remarkable stories of life on an alien planet, superluminal space travel, and advanced knowledge of alien technologies. He reveals how the Ebens presented the U.S. with "The Yellow Book"--a complete history of the universe recorded holographically, allowing the reader to view actual scenes from pre-history to the present. He explains how the Ebens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems--knowledge still classified. Exposing the truth of human-alien interaction and interplanetary travel, Kasten reveals not only that the Ebens have returned to Earth eight times but also that our government continues to have an ongoing relationship with them--a relationship with the potential to advance the human race into the future.

Simple answer yes, since 1985 while at the Foreign Technology Division (FTD-WP) there were stories about an exchange program discussed inside the vault. Is the book right? Simple answer no, the book is taken directly from the SERPO Web Site. Disinformation (defined as True/False, in this case mostly false) just like the Dan Burisch story about a sick alien, Defense Intelligence Agency (DIA) Counter-intelligence pumping more disinformation into the public domain. It's captivating and inspiring, but what is true? 1) Anon says: In making this plea, Anonymous is communicating to Martinez how important it is to leave the Commander's precise phraseology intact and to reproduce it exactly as he recorded it with incorrect spelling, grammar, and inconsistencies included. He understood that this diary must be given to posterity "warts and all." False statement: no logs are put in a government document with all the errors. The logs like any rough draft are cleaned up before they are ever put in any official government document which makes all the logs suspect or disinformation. How it might sound doesn't make it true. The human to alien conversations sound very much like human to human at a 5th grade level. 2) President Kennedy gave the official directive for the Eben exchange program. The date for the alien landing had been previously set for April 24, 1964, and the landing site was to be at the western border of Holloman Air Force Base. False: the contact site wasn't Holloman, that was disinformation. It was the Trinity site. The Socorro incident (Lonnie Zamora, April 24, 1964) was where the aliens landed by mistake. And yes, JFK was very involved, that part is true and perhaps one of the reasons he was killed.
