Customer Reviews

Not sure of the bad reviews. This is great to actually "understand" how the exam was written. Don't use it for your only verbal review, use it if you can't figure out question types and how to get started. If you have 3+ months, this is a great 'intro". It highlights words you need to look for, how the authors manipulate passages, etc.

I bought it and returned it, the reason is simple."Unless your reasonable goal is to score a perfect 15, you are going to miss some questions. It...." I am not sure why 15?
